ECOSOLAR BASIC 201

Ecosolar is a line of products with a wide range of **solar powered devices** designed to signalize dangerous situation and integrate the traffic signs.

The Ecosolar line uses **LED lights** certified to **EN 12352**.

The compact design and the **extremely easy installation** make the Ecosolar the perfect choice for any type of pole and traffic signs.

The Ecosolar line is designed to be installed also on existing traffic signals.

Power saving options ensures high autonomy even in critical weather conditions.

To ensure the correct operation of the devices it is however necessary that the photovoltaic panel receives direct sunlight at least during the central part of the day.
