INDICATOR LITE PLUS

COMPACT SPEED BUMP.

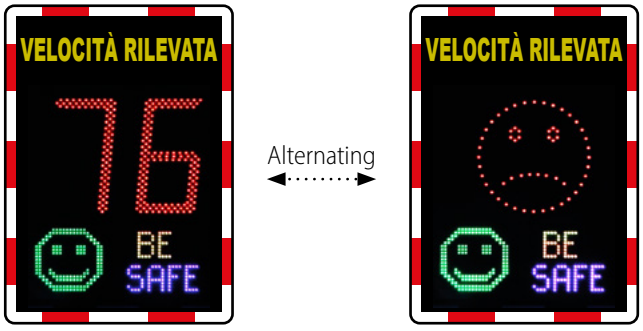
The device is not designed for installation onto traffic signs.
It detecs vehicle speed from 1 to 255 km/h, with speed display up to 99 km/h.

It allows storage of up to **16 customizable contents**, consisting of **text and symbols**, selectable by the user according to operational requirements. **8 colour options** are available, with the possibility to configure differentiated colour combinations for text elements.

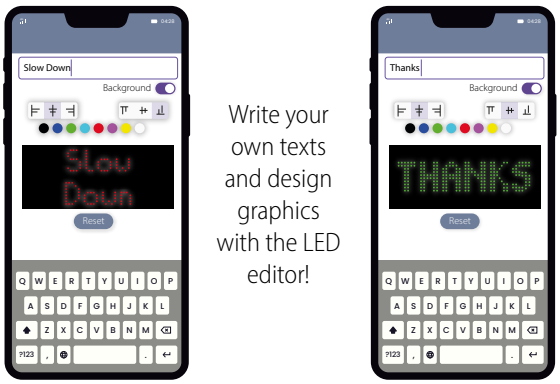
Customization can be carried out quickly and easily via dedicated **software** or through a dedicated **iOS/Android app**.

Among its special functions, the device supports alternating display of a **smile icon / speed limit indication** on the main screen. Simultaneously, the lower section of the panel can continuously display a symbol or one or two lines of informational text.

Power supply kits are integrated within the device housing.



New Smile-Function



Write your own texts and design graphics with the LED editor!
