

# LEDBox

**LEDBox** is a family of products designed to keep a low impact in aesthetics while delivering a great active safety signal.

They are provided as standard with external control, but there are some models with integrated control unit or with 230 VAC power supply.

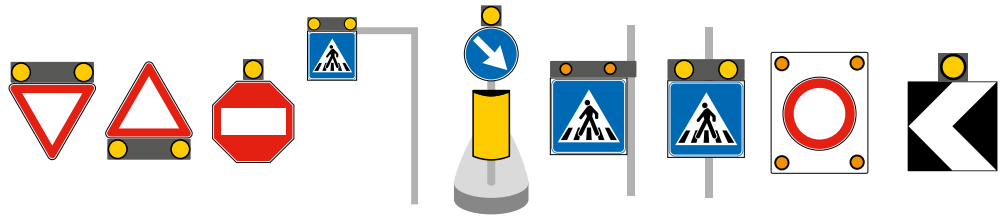

**The LEDBox external control can be used with:**

Our Compact Photovoltaic Kit with S600 controller.

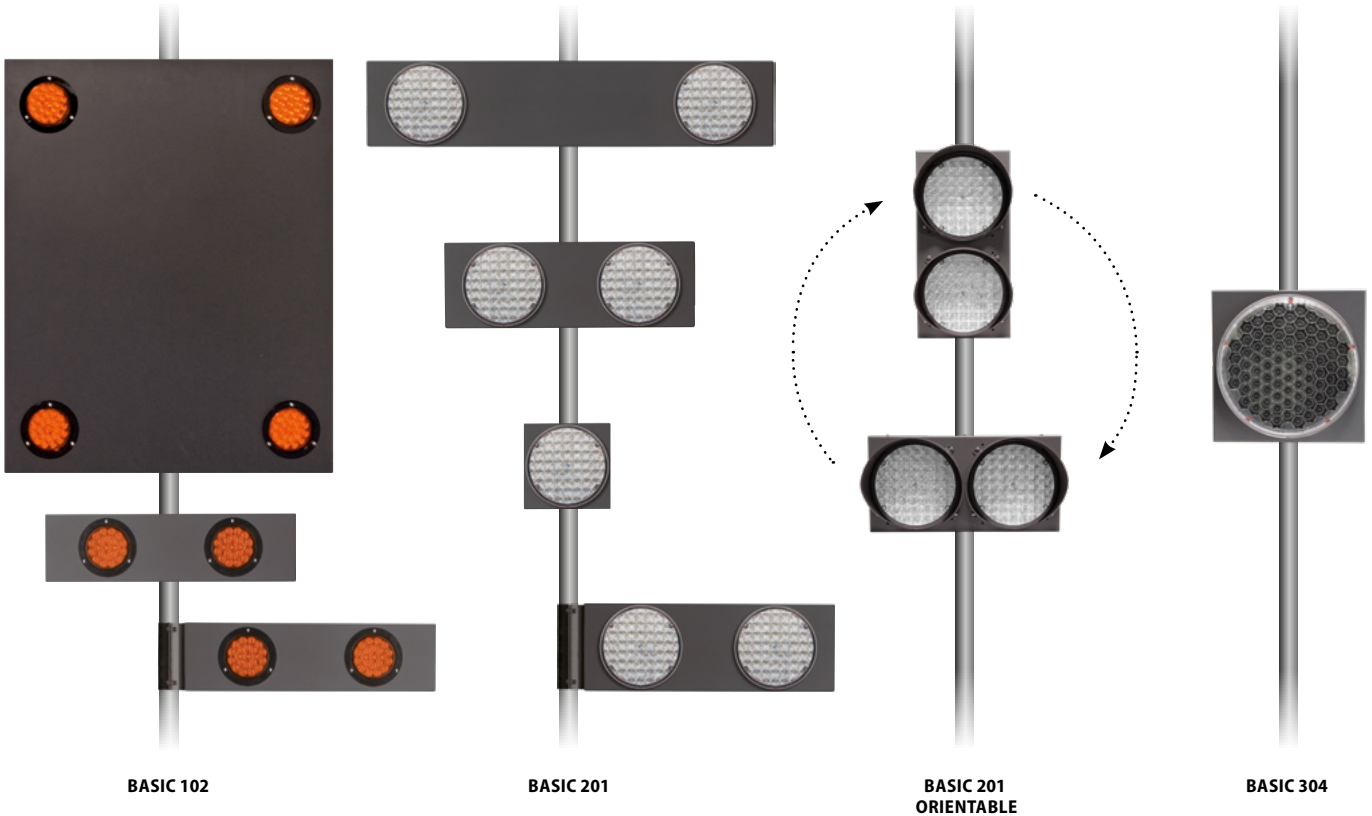

Our Box and control units (see pages 10-11).

Our DIN rail mountable flashing control unit (see page 32).

Some examples of applications:

Certification	Model	
<b>UNI EN 12352 - L2H</b>	LEDBox Basic 102	LEDBox 2 x Basic 102 - central mount
		LEDBox 4 x Basic 102 - central mount
		LEDBox 4 x Basic 102 - flag mount for APL
		LEDBox 4 x Basic 102 - flag mount
<b>UNI EN 12352 - L8H L8M</b>	LEDBox Basic 201	LEDBox 1 x Basic 201 - central mount
		LEDBox 2 x Basic 201 - central mount
		LEDBox 2 x Basic 201 - central mount
		LEDBox 2 x Basic 201 - flag mount
		LEDBox 2 x Basic 201 horizontal with visor - orientable mount
		LEDBox 2 x Basic 201 vertical with visor - orientable mount
<b>UNI EN 12352 - L9H L9M</b>	LEDBox Basic 304	LEDBox 1 x Basic 304 - central mount

**BASIC 102**

**BASIC 201**

**BASIC 201  
ORIENTABLE**

**BASIC 304**
