

Tempo Flash

TempoFlash is a safety device that advises the road users about the ice condition of the road surface.

When the outside temperature goes below 3°C the LED flashing double system activates.

The temperature can also be displayed.

Available version with a high precision temperature probe to insert directly into the ground.

The system sends an SMS at a set temperature and can be used in "remote control mode" at any time to obtain information (temperature, system status etc.).
